Expert knowledge and advice

A professional service designed to assist Owners wishing to collect their new yachts.

We recognise that it is an exciting time to take delivery of your new yacht, but we also know that it can be a little daunting as well. Our years of experience and knowledge gained from commissioning and delivering yachts from many of the leading manufacturers worldwide, can now help you make the experience more enjoyable.

Quality Control

We take the steps to make sure that the yacht is of sufficiently high quality. We go to great lengths to examine every possible part of the boat and record our observations.

Benefits

- You save time on evaluating and accepting your yacht.
- Our experts will professionally assess the yacht before delivery. In case of any problems you will save your money on correcting defects and won't have to deal with angry customers' feedbacks regarding poor functionality and presentation.
- All defects and variances revealed before your yacht has been accepted will need to be fixed or updated by the manufacturer without charge.
- You will have peace of mind in the quality of your yacht.

Local Knowledge

Our specialist teams of commissioning agents and delivery Captains have gained extensive knowledge over many years. We have built up excellent working relationship with the After Sales offices at many manufacturers and are able to expedite any outstanding issues found.

Independent

By being independent of the manufacturer and working directly for the Owner or Broker we are able to provide a service suited to our clients needs without any conflicts of interest.
